WEIGHT SELECTION GUIDE

Week 1 & 2

→ Use light to moderate dumbbells

Week 3 & 4

→ **Round 1:** Start with light to moderate dumbbells.

→ **Rounds 2 & 3:** Increase weights by 1 to 2 kg (2.2 to 4.4 lbs).

Week 5 onwards

→ Start increasing your weights where you can by 1-2 kg (2.2 – 4.4 lbs), once an exercise feels too easy.

→ The final few reps of each exercise should feel challenging.

→ You want to be working near your limit, with 1 to 2 reps or less still “in the tank.”

→ If the last 2 to 3 reps feel too easy, it's time to level up.

→ Retain good form at all times.
