STRETCH

→ Finish off with a stretch for quads, glutes, hamstrings and lower back.

WEIGHT SELECTION GUIDE

- **Round 1** : Start with light to moderate dumbbells.
- **Round 2 & 3** : Increase weights by 1-2 kg (2.2 – 4.4 lbs) only.

KEY REMINDERS

- By week 3 of performing this workout, the final few reps of each exercise should feel challenging.
- You want to be lifting a weight that has you working near your limit, with 1–2 reps or less still "in the tank."
- If the last 2–3 reps feel too easy, it's time to level up and increase your weights.
- If your form breaks down early? Drop it back. Let control lead the way.
